SKILLS

AI & GenAI: Python, Generative AI, AI/LLM APIs, Prompt Engineering, Retrieval-Augmented Generation (RAG), Machine Learning, NLP, Sentiment Analysis, LSTM, Reinforcement Learning, Explainable AI

Application Development: JavaScript, React.js, Node.js, Express.js, Flask, REST APIs, Kotlin, Jetpack Compose

Data & Databases: SQL, MySQL, MongoDB, Firebase Firestore

Tools & Cloud: Git, GitHub, Firebase, Google Cloud

EXPERIENCE

MindMatrix Remote, Bangalore
Android Application Development Intern (GenAI) Feb 2026 – May 2026

- Developed Android applications using Kotlin, Jetpack Compose, and MVVM architecture.
- Contributed to Rakta Seva Connect, implementing donor discovery and emergency request management workflows.
- Integrated Firebase Authentication, Firestore, APIs, and Groq AI services for user data management, cloud synchronization, and AI-assisted communication.

PROJECTS

Trade-Z | GitHub

- Engineered the Flask backend for a collaborative AI trading assistant, implementing LSTM-based market forecasting, reinforcement-learning strategy signals, and sentiment analysis (NLP).
- Built Flask–React integration for market visualization, implementing explainable-AI output and risk validation on generated predictions.

Tech: Python, Flask, React.js, LSTM, Reinforcement Learning, NLP, Sentiment Analysis, REST APIs

Zix'Ovibes | GitHub

- Designed a Deep Focus workflow that converts natural-language goals into structured task plans via LLM-based prompt processing, task decomposition, ordering, and Pomodoro time allocation.
- Built a full-stack app using React, Vite, Node.js, and Express, combining music, relaxation, and productivity tools into a single distraction-minimized workspace.

Tech: React.js, Vite, JavaScript, Node.js, Express.js, REST APIs, LLM APIs, Prompt Engineering

Rakta Seva Connect V2 | GitHub

- Built donor discovery and blood-group filtering with emergency request management, using Kotlin, Jetpack Compose, and MVVM architecture.
- Integrated Firebase Authentication, Firestore, and the Groq API for AI-assisted donor communication and cloud-backed user workflows.

Tech: Kotlin, Jetpack Compose, Firebase, Firestore, MVVM, Groq API

EDUCATION

Sri Sairam College of Engineering, Bangalore **2022 – 2026**
B.E. in Computer Science & Engineering CGPA: 7.7/10

CERTIFICATIONS

- **Google AI Essentials** — Google, Coursera (2025)
- **Artificial Intelligence on Microsoft Azure** — Microsoft, Coursera (2024)
- **Introduction to Large Language Models** — Google Cloud, Coursera (2024)
- **Introduction to Generative AI** — Google Cloud, Coursera (2024)

LANGUAGES

English | Kannada | Tamil | Telugu | Hindi
